

As (acting) chairman of the City of Memphis Alcohol Commission, I move that the Commission consider the following:

Due the declaration of a civil emergency by Mayor Strickland for the City of Memphis, I move that the Alcohol Commission grant permission for all businesses presently holding a lawful "on premises" beer permit issued by the Memphis Permits Office to sell sealed containers of beer to-go, including curbside, drive-through and / or delivery. All permittees, their employees-including delivery employees, subject to this motion must continue to follow all applicable federal, state and City laws and ordinances. This motion takes effect immediately upon passage and will remain in effect only for the time until the Mayor of Memphis announces the declaration of Civil Emergency has ended.
